

Technology Requirements Internet Delivery Of Workforce Readiness Skills

Purpose:

This document discusses the locations and technology requirements to successfully utilize the Workforce Development System. Requirements for the system are as follows.

Requirements follow::

- Broadband internet connectivity (1.0 Mbps or greater)
- Internet Explorer 7.0 or greater or FireFox 2.0 browser or higher
- Adobe Flash , Version 8 or above
- Speakers and Sound Card
- HTML (Port 80)
- JavaScript
- Ability to access Web services

Filtering or limiting access to any of the above will inhibit the system's performance or cause it not to function.

The candidate website is located at: <http://www.accutalent.com/workforce/jobseeker>. The candidate inputs a user name and password supplied by the administrator to access the assessments.

Administrators' needs are as follows:

Administrator inputs candidates in order to provide user information for access to the system as described in the previous section and ultimately access and print assessment reports.

The administrator website is located at:

<http://www.accutalent.com/workforce/admin/index.aspx>.

Accessing the administrator website requires a username and password provided by AlignMark Client Services.

- Minimal internet connectivity (56 kbps or greater)
- Internet Explorer 7.0 or greater or FireFox 2.0 browser or higher
- HTML (Port 80)
- JavaScript
- Ability to access Web services
- Adobe Acrobat 7.0 or higher for printing feedback reports
